Estimate details

Estimate no.: 120
Estimate date: 09/13/2026
Status: Pending

PRODUCT OR SERVICE	AMOUNT
Paint shop walls and doors	\$50,600.00
Prepare and professionally paint the interior shop walls, locker room walls and bathrooms. Scope includes surface cleaning and preparation, removal of loose dirt, dust, and debris, minor surface preparation as needed, and masking/protection of floors, equipment, doors, trim, and adjacent surfaces. Apply a full coat of compatible primer where required, followed by finish coat of commercial-grade wall paint by roller or spray application to provide uniform coverage and a clean, professional appearance. Includes a painted accent line or bottom-half wall band in the customer's selected color (MRA Orange). Price includes: Labor, primer, finish coat, standard materials, equipment, masking/protection, and final jobsite cleanup. Metal casings, doors and cranes are included.	
Paint shop ceiling	\$46,920.00
Apply one full coat of compatible metal primer in peeling areas, followed by a finish coat of commercial-grade ceiling coating. Coating will be applied by spray to achieve uniform coverage, consistent color, and a clean, professional appearance. Includes all cranes, crane structures and surrounding crane equipment. Price includes: Labor, primer, finish coat, standard materials, spray equipment, masking/protection, and final jobsite cleanup.	

Epoxy floor coating	\$96,200.00
----------------------------	--------------------

Prepare and coat the existing concrete floor with a commercial-grade solid color epoxy flooring system. Scope includes diamond grinding and mechanical surface preparation to remove contaminants, open the concrete surface, and promote proper coating adhesion. Thoroughly vacuum and clean the floor prior to coating application.

Apply one full coat of solid color epoxy to provide a durable, seamless, and uniform finish. After proper epoxy cure, apply one urethane topcoat for added protection against abrasion, chemicals, staining, and everyday shop traffic.

Price includes: Surface preparation, epoxy coating, urethane topcoat, labor, standard materials, equipment, masking/protection, and final cleanup.

Subtotal	\$193,720.00
